### AMAZING ADVENTURE

We have just returned from the most amazing experience in Vanuatu aboard a MY Encore charter. After flying into Santo, we spent two weeks amongst the Bank And Torres Island groups in the north of Vanuatu. From the clear blue water, coral outcrops, white sandy beaches, rugged mountains, volcanoes, and friendly locals it is simply a stunning location which still remains relatively untouched and isolated.

Our home on the water was superbly appointed.... 4 double guest rooms with private facilities, hot spa, several indoor and outdoor dining options, bar area, wifi, internet, 240 v power, jet ski, fishing, snorkelling and other water sport equipment.

Although the weather was hot and humid, there was always relief available be it on board in the comfort of the air conditioning, getting a refreshing ice cold towel after an island excursion or simply jumping overboard for a cool off in the blue, crystal clear water.

The crew, Cpt Seb, Stewardess Lucy and Chef Ben looked after our every need and definitely spoiled us. Nothing was too much trouble and everything was done with a smile. The thorough research and attention to detail that was done by the crew on the area we were to visit before our arrival, allowed us to visit the local communities on several islands and enjoy wonderful small group personal experiences not available to most visitors to the area e.g. Water Music...Gaua Island, Snake Dance.... Rah Island, Turtle tagging on Vanua Lava, as well as learning about traditional foods, kava and local crafts .... Lonnoc Bay.

Dining was five star with chef Ben incorporating many local produce items sourced from local markets and villages, as well of course fish caught on board into culinary delights..... the sashimi from my 70 kg yellow fin tuna was to die for!

Vanuatu has a reputation for spectacular sunsets and we certainly were not disappointed . Watching the sun disappear with cocktail in hand was always the perfect ending to a fabulous day in paradise.
